

Date: May 7, 2021

To: WHWD Board of Directors

From: Christa Manning, District Secretary

Subject: Water Code §35041 – Certification of Assessable Area Within District

1. **Overview.** As set forth in the Certification of the WHWD Secretary attached hereto as Exhibit “A”, there are approximately 5086 assessable acres within WHWD’s jurisdictional boundaries, which encompasses the Diablo Grande development project. Of that amount, approximately 2644.5 acres are currently devoted to and developed for residential, industrial, or nonagricultural commercial use, which is approximately 51.9% of the assessable acres within WHWD’s jurisdictional boundaries.

DESIGNATION	ACRES	PERCENTAGE OF ASSESSED WHWD LAND VALUE
TOTAL WHWD ACRES	5117	
EXEMPT	30.8	
		SUBTOTAL: 5086
RESIDENTIAL, INDUSTRIAL, NONAGRICULTURAL COMMERCIAL	2,644.5	51.9%
REMAINING ACREAGE	2,441.4	48.1%

2. **Certification of Secretary.** Water Code §35041 states: Between January 1 and March 30 of each year, the secretary of the district shall inspect the assessable area within the district. At such time as at least 50 percent of the assessable area within the

district is devoted to and developed for residential, industrial, or nonagricultural commercial use, or any combination thereof, such fact shall be certified to the board of directors by the secretary of the district. Any time after such certification the registered voters residing within the district may petition for a change in the voting procedure from a landowner voting district to a resident voting district.

3. Inspection Process. During January and March 2021 an inspection of the real property within WHWD was conducted by the WHWD Secretary, with the assistance of District staff, upon which the Secretary's Certification and determination is based. For purposes of the determination, the following principles and facts were relied upon:

a. Total WHWD Acreage. The total acreage of WHWD encompasses approximately 5117¹ acres. See Stanislaus County Local Agency Formation Commission ("LAFCO") map of WHWD's jurisdictional boundaries, attached hereto as Exhibit "B". WHWD was formed specifically to provide water and sewer services to the Diablo Grande development project.

b. Nonassessable Acreage. Real property owned by a local government is exempt from assessment. (See Cal. Const. Art Article 13, Section 11(a); Article 13, Section 3(b); Rev. & Tax Code §§201-202.) Therefore, real property owned by WHWD and other public agencies is nonassessable. The total nonassessable acreage within WHWD equals approximately 30.8 acres.

c. Characteristics of Assessable Acreage. In accordance with the Diablo Grande Specific Plan² approved by the Stanislaus County Board of Supervisors and the specific zoning requirements adopted therein, the only remaining assessable acreage within WHWD can only be used for general agricultural, residential, industrial or nonagricultural commercial purposes. As set forth in Exhibit "C" attached hereto, the purpose for which each Stanislaus County A.P.N. within WHWD is devoted and developed is provided.

In making these determinations, generally applicable rules and definitions relative to development in the land use context were applied. It is important to note that in order to be designated as "devoted to and developed" for an ultimate purpose such as residential does not require a particular parcel be fully developed to its final form, i.e., final buildout of individual residential units. For property to be deemed developed, it only requires that actions or steps to convert the property from its initial use or purpose has been undertaken. For purposes of the Diablo Grande project, that means conversion from its prior use as agricultural to the uses designated under the specific plan in order to develop it.

¹ Stanislaus LAFCO estimates WHWD covers approximately 5070 acres, plus or minus.

² <https://www.stancounty.com/planning/pl/documents/3-RedLinedSpecificPlan.pdf>

Examples of such actions or steps of development include but are not limited to:

- subdividing a larger parcel into smaller sections with the intent it be developed;
- subjecting a property to a zoning requirement other than agricultural with the intent to convert the property to a new use;
- grading, excavation and improvement of property for a use other than agricultural with an intent to develop for other uses;
- assessment by the appropriate taxing authority for uses other than agriculture;
- marketing the property for uses other than agriculture.

For purposes of illustration, the above rules were applied to Stanislaus County A.P.N. 025-040-016 (82.6 acres) to determine its designation as nonagricultural commercial. The parcel has been subdivided from a larger tract and is zoned Specific Plan. It also happens to be subject to the Mello Roos special taxes for which conversion of Diablo Grande from agricultural uses to residential development were adopted and used to fund the backbone infrastructure, e.g., roads, water and sewer infrastructure, and similar improvements. Stanislaus County assesses the parcel on that basis, as opposed to agricultural³.

Compare that with Stanislaus County A.P.N. 025-046-007 (180.6 acres). This parcel is designated and assessed by Stanislaus County as agriculture and is therefore not a residential, industrial or nonagricultural commercial use. Stanislaus County assesses the parcel for agricultural uses.

Stanislaus County A.P.N. 025-040-016 is devoted to and developed as nonagricultural commercial use (or residential as the case may be), since it is not now, nor can it be, devoted and used for agricultural purposes. (See Stanislaus County Code §21.12.020 – definition of agriculture means the “tilling of the soil, the raising of crops,”; see also, Stanislaus County Code §21.16.040 – conformance with zoning requirements of specific plans is required; county officials “shall issue no permit or license for uses...in conflict with the provisions of this title....”)

Similar analysis was done for all parcels within WHWD to make the determinations as set forth in Exhibit “C”. Applying these rules results in the Secretary’s certification that “at least 50 percent of the assessable area within the district is devoted to and

³ To the extent a party desires to argue this parcel could be designated residential as opposed to nonagricultural commercial that is a fair but moot point for purposes of the determination required by Water Code §35041, as the determination may be a “combination” of the uses for reaching the 50% threshold.

developed for residential, industrial, or nonagricultural commercial use, or any combination thereof.”

4. **Conclusion.** Based on these findings, approximately 2644.5 acres within WHWD’s assessable total acreage are devoted to and developed for residential, industrial, or nonagricultural commercial use, which is approximately 51.9% of the assessable acres within WHWD’s jurisdictional boundaries.

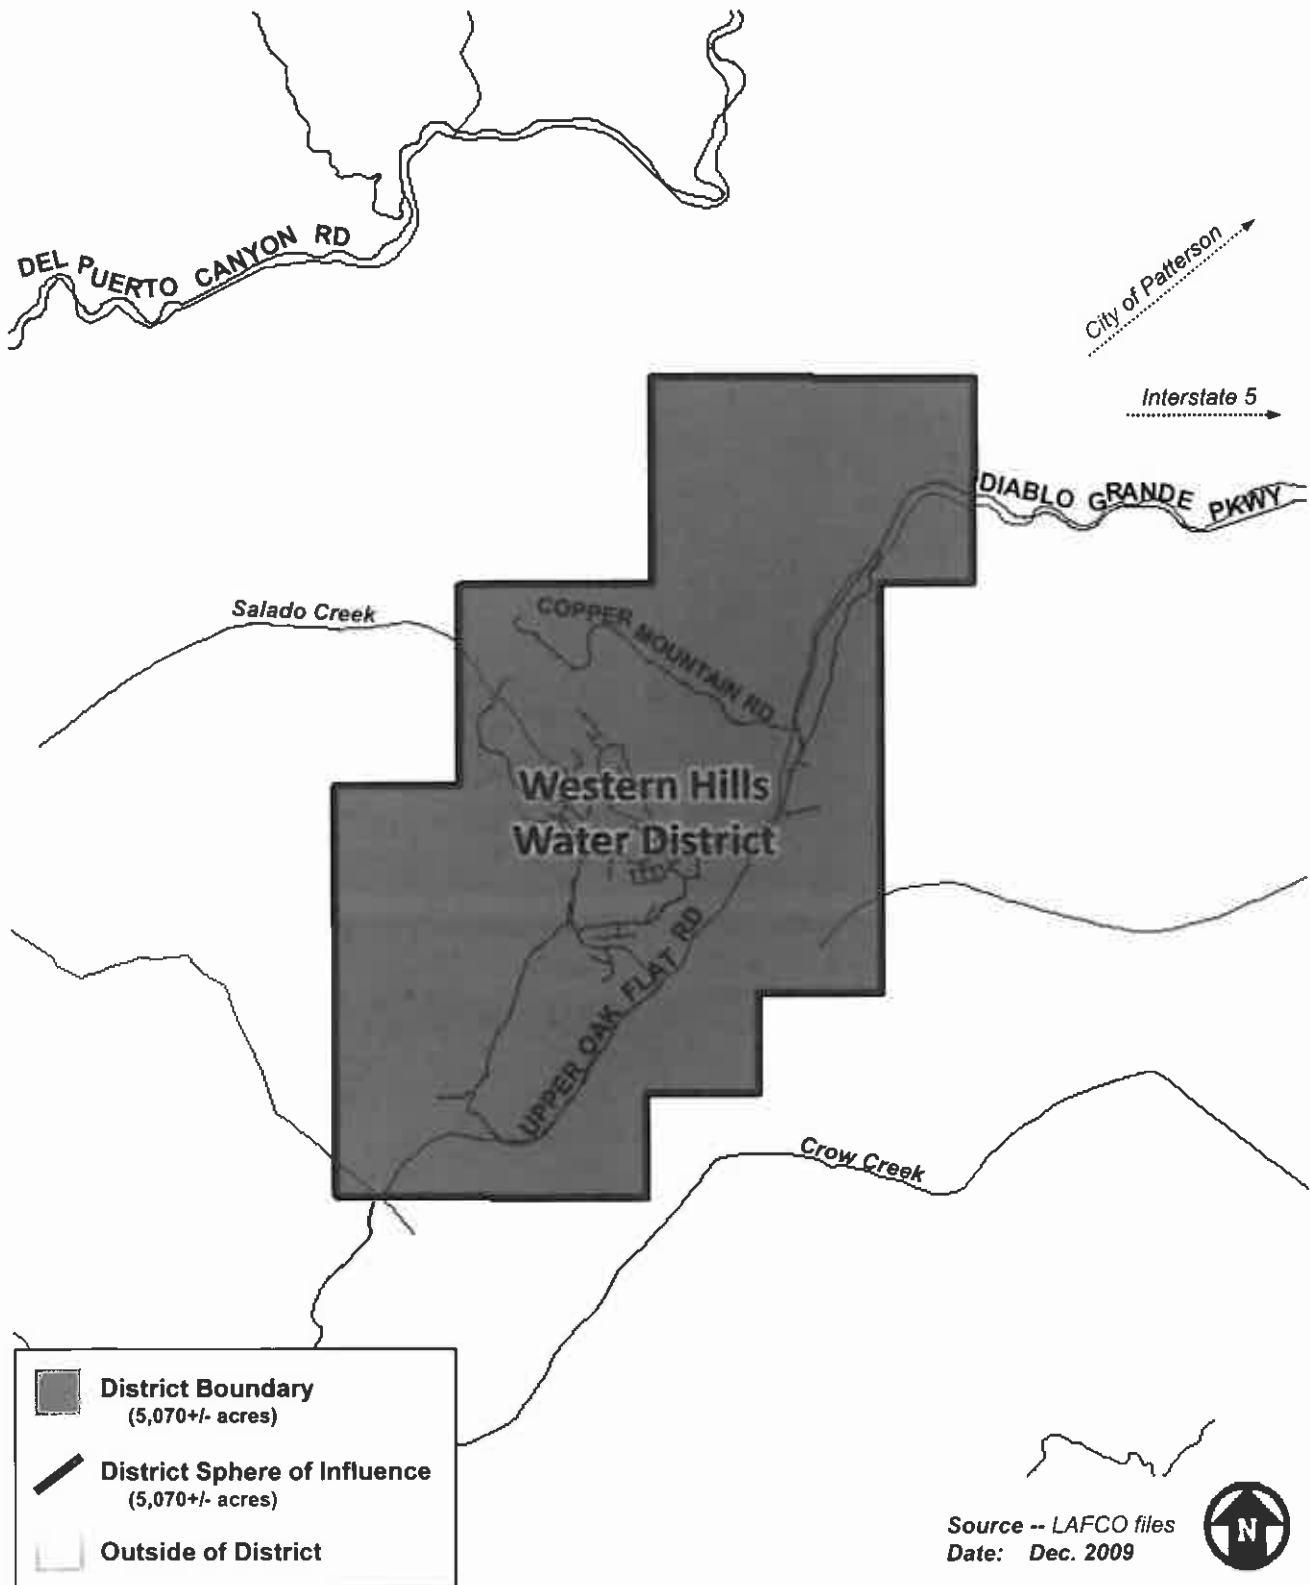

CERTIFICATION OF WHWD SECRETARY
WATER CODE §35041 – ASSESSABLE ACREAGE

In accordance with Water Code §35041, I hereby certify that upon inspection occurring between January 1 2021 and March 30, 2021 and to the best of my knowledge, that at least 50 percent of the assessable area within the jurisdictional boundaries of the Western Hills Water District is devoted to and developed for residential, industrial, or nonagricultural commercial use, or any combination thereof.

Christa Manning, WHWD Secretary
