Western Hills Water District

MANAGEMENT'S DISCUSSION AND ANALYSIS

For Year Ending June 30, 2005

This section of the District's annual financial report presents our analysis of the District's financial performance during the Fiscal Year that ended on June 30, 2005. Please read it in conjunction with the Basic Financial Statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The District's total assets increased by \$9.4 million, or 18%, to \$62.0 million.
- During the year the District's revenues increased by 83% to \$172 thousand, while expenses increased by 50% to \$2.5 million.
- Capital contributions to the District were reduced by \$605 thousand.

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis are intended to serve as an introduction to Western Hills Water District's basic financial statements. The District's MD&A is comprised of five components: Net Assets, Financial Statements, Capital Assets, Debt Service and Subsequent Event- Bankruptcy of Developer. This report also contains other supplementary information based on these statements.

BASIC FINANCIAL STATEMENTS

The Statement of Net Assets includes all of the District's assets and liabilities and provides information about the nature and amounts of investments in resources (assets) and the obligations to District creditors (liabilities). It also provides the basis for computing rate of return, evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District.

The Financial Statements of the District report information about the District using accounting methods similar to those used by private section companies. These statements offer short and long-term financial information about its activities.

Capital assets, shown in Table 3, inform our bondholders that Western Hills Water District is spending their bond money in a manner that is consistent with increasing the assets that will ensure the company's overall future health.

Long-term debt has been secured by the special assessment on all property owned in this phase. These assessments will be charged through the year 2031. Even though the bonds are not the obligation of Western Hills Water District, the District has agreed to assume the accounting responsibility for these bonds.

FINANCIAL ANALYSIS OF THE DISTRICT

One of the most important questions asked about the District's finances is, "Is the District, as a whole, better off or worse off as a result of the year's activities?" You can think of the District's net assets (the difference between assets and liabilities) as one way to measure financial health or financial position. Over time, increases or decreases in the District's net assets are one indicator of whether its financial health is improving or deteriorating. However, until a startup company has stabilized, there may be mitigating factors on why net assets tend to fluctuate up and down as shown in Table 1 below.

NET ASSETS

To begin our analysis, a summary of the District's Statement of Net Assets is presented in Table 1. As can be seen from the table below, net assets decreased by \$4,270 million to \$(.518) million in fiscal year 2005. This is down from \$3.752 million in fiscal year 2004. This decrease is a result of the following:

1. Long term debt increased by \$8.56 million primarily due to the bond issue in June 2005.
2. Current Liabilities increased by \$5.09 million due to the sewer project.

TABLE 1
Condensed Statements of Net Assets
(000)

	2005	2004
Current and Other Assets	\$ 2,226	\$ 845
Restricted Assets	7,105	5,640
Fixed Assets	36,540	28,435
Other Assets	16,154	17,724
Total Assets	62,025	52,644
Current Liabilities	6,778	1,687
Long-Term Debt	55,765	47,205
Total Liabilities	62,543	48,892
Net Assets	\$ (518)	\$ 3,752

FINANCIAL STATEMENTS

Western Hill's financial statements are extremely lopsided on the expense side. This is due to the fact that Western Hills is a very new district and has very few customers. This will be the norm until residential and commercial projects are started and completed for this district. Please see 2006's challenges at the end of this report.

TABLE 2
Statement of Revenues & Expenses
For the Years ended June 30, 2005 and 2004
(000)

	<u>2005</u>	<u>2004</u>	<u>Total Percent Change</u>
Total Revenues from Operations	\$172	\$94	83.0%

Net Book Value	<u>\$ 36,540</u>	<u>\$ 28,435</u>	<u>\$ 8,105</u>	<u>18.0%</u>

LONG TERM DEBT

At year-end, the District had \$56.6 million in long-term debt, including the current portion. This is a net increase of \$8.9 million from 2004. This increase is from a third bond issued in June 2005.

The District has outstanding general obligation debt stemming from Mello-Roos bonds issued in August 2001, December 2002, May 2004 and June 2005. The District's current average cost of capital is 6.0% in outstanding debt, as shown on Table 4. Amortized discount and deferred loss on refunding are not included in the outstanding bond balance shown on Table 4 below.

TABLE 4
Outstanding Debt
(000)

	<u>Debt Balance</u>	<u>Average Coupon Rate</u>
General Obligation Bonds	<u>\$ 56,555</u>	<u>6.0%</u>

SUBSEQUENT EVENT- BANKRUPTCY OF DEVELOPER

Over the years the District has struggled to provide funding for its operating expenses and construction requirements. In the early years, the developer, Diablo Grande LP covered these shortfalls by providing cash injections and paying the District's invoices for total contributions in aid of construction of \$8.206 million. In addition, in 2002, the District was required to post a bond in the amount of \$605 thousand with the Army Corps of Engineers to comply with regulations and cover any costs due to leaking or spillage. The District did not have the money to purchase the bond so Diablo Grande LP funded the bond, which was also treated as a contribution in aid of construction.

Due to rising construction costs and litigation, both the District and Diablo Grande LP faced cash flow challenges. From 2001 to 2008 the District would borrow money from Diablo Grande LP to pay for construction costs and then pay these costs back when the money was available, and Diablo Grande LP would also borrow money from the District. In March of 2008, Diablo Grande LP filed for bankruptcy under Chapter 11. When this event happened Diablo Grande LP owed the District \$1.7 million. Due to the real estate market at the time of the bankruptcy, the District will not be able to recover this money, and has written off the full amount of the outstanding receivable as a bad debt expense in 2005.

During the bankruptcy proceedings for Diablo Grande LP, the bond with the Army Corps of Engineers was drawn into the proceedings. Since the bond was in the name of Diablo Grande LP the District had no say in the matter and was forced to write the bond off the books in 2005, with an offsetting reduction in contribution in aid of construction for Diablo Grande LP's original investment of \$605 thousand.

The District has performed a review and determined that with the write-off of the money owed by Diablo Grande LP and the forfeiture of the bond, there are no remaining ties with the now defunct company Diablo Grande LP.

2006 CHALLENGES AND A LOOK AT THE FUTURE:

Western Hills Water District's assets are notably in place as of June 30, 2005. The only notable change in assets is the nine mile sewer line project to the neighboring town of Patterson.

Financial operations are limited due to a small customer base. At this time, the water company receives its income from two golf courses, sixty acres of vineyards and residential housing.

Western Hill's future projects include the sewer line completion, pump station upgrades, and water treatment facilities upgrade.

All in all it will take more than 10 years for Western Hills to be even close to breaking even. Due to the Bankruptcy of the developer, it had been a concern of Western Hills that it could not pay its operating expenses since the developer had been paying the shortfall. In light of the development being sold Western Hills will continue to keep paying its bills through the assumed obligation of the new owners.

CONTACTING THE DISTRICT'S FINANCIAL MANAGER

This financial report is designed to provide our customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives.

If you have questions about this report or need additional financial information please contact Western Hills Water District.

INDEPENDENT AUDITORS' REPORT

Board of Directors
Western Hills Water District
Patterson, California

We have audited the accompanying balance sheets of the Western Hills Water District (the "District") as of June 30, 2005 and 2004 and the related statements of revenues and expenses, changes in net assets, and cash flows for the years then ended. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the State Controller's Audit Requirements for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the District as of June 30, 2005 and 2004, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America, as well as accounting systems prescribed by the State Controller's office for special districts.

The accompanying financial statements have been prepared assuming the District will continue as a going concern. The District continues to experience significant losses. The operating results coupled with the bankruptcy of the project's developer (see note 7) raise substantial doubt about the District's ability to continue as a going concern. As discussed in note 8, the financial statements do not include adjustments that might result from the outcome of this uncertainty.

WESTERN HILLS WATER DISTRICT
Notes to Financial Statements
June 30, 2005 and 2004

1. Summary of Significant Accounting Policies

The accounting policies of the Western Hills Water District (the "District") conform to accounting principles as applicable to governmental entities, which are classified as proprietary funds – business type, in the United States of America. The following is a summary of the more significant policies:

Reporting entity

For financial reporting purposes, in conformity with the Governmental Accounting Standards Board ("GASB") Codification Section 2100, defining the governmental reporting entity, the District includes all funds that are controlled by or dependent on the Board of Directors of the District. Since no other entities are controlled by or rely upon the District, the reporting entity consists solely of the District.

Diablo Grande Community Facilities District No.1 – Bond Issues (see note 4)

Western Hills Water District - Diablo Grande Community Facilities District No. 1 has issued bonds pursuant to the Mello-Roos Community Facilities Act of 1982, as amended, as follows: \$21,000,000 in August 2001, \$6,650,000 in December 2002, \$20,000,000 in May 2004, and \$9,350,000 in January 2005; for a total of \$57,000,000 as of June 30, 2005. The bonds are secured by and payable from a pledge of special taxes to be levied on approximately 5,070 acres of real property within the boundaries of the District. The Bond provisions indicate that:

"Neither the faith and credit nor the taxing power of the water district, the County of Stanislaus, the State of California or any political subdivision thereof is pledged to the payment of the bonds. The bonds do not constitute a debt of the water district within the meaning of any statutory or constitutional debt limitation."

Although the provisions indicate the bonds are not an obligation of the Western Hills Water District, the District has assumed the responsibility of accounting for the proceeds and the future debt service. The bond proceeds funded the acquisition by the District of water and wastewater facilities. The costs of water facilities incurred in prior years were contributed to the District by Diablo Grande LP (Diablo Grande), the developer of the Diablo Grande project. The bond proceeds, net of certain costs of issuance and debt reserve requirements, have been used or set aside for current and future facility improvements.

Fund accounting classification

The financial statements of the District are presented as those of an enterprise fund under the broad category of funds called proprietary funds which also includes internal service funds. Enterprise funds account for operations that are financed and operated in a manner similar to private business enterprises – where the intent is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered substantially through user charges. The acquisition of the physical plant facilities required to provide these goods and services, as indicated above, were initially financed by the developer, for the District, in anticipation of proceeds from the bond issue, which will further fund the additions to plant and equipment.

WESTERN HILLS WATER DISTRICT
Notes to Financial Statements
June 30, 2005 and 2004

1. Summary of Significant Accounting Policies (continued)

Basis of accounting

Enterprise funds are accounted for on the flow of economic measurement focus using the accrual basis of accounting. Revenues are recognized when they are earned, and expenses are recognized when they are incurred.

The GASB is the designated standard-setting body establishing governmental accounting and financial reporting principles.

The District follows alternative 1 of GASB 20 regarding the use of the pronouncements of the GASB and Financial Accounting Standards Board ("FASB") in its accounting. That is, the District follows (1) all GASB pronouncements and (2) FASB pronouncements, Accounting Principles Board ("APB") Opinions, and Accounting Research Bulletins ("ARB") issued on or before November 30, 1989, except those that conflict with GASB pronouncements.

Cash and cash equivalents

For the purpose of the statement of cash flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents, including short-term certificates of deposit. To date, only cash in bank is applicable.

Investments

State statutes authorize the District to invest in obligations of the U.S. Treasury, the Local Agency Investment Fund of the State of California (LAIF), commercial paper, corporate bonds and repurchase agreements.

Fixed assets

Fixed assets are carried at historical cost or estimated historical cost if actual cost is not available. Contributed assets will be recorded at cost or estimated fair value on the date contributed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Depreciation expense is provided on a straight-line basis over 30 to 40 years depending on the category.

Estimates in accounting

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and consequently, the reported amounts of revenues and expenses in the financial statements. The District's estimates relate primarily to useful lives of its fixed assets and the determination of an allowance for uncollectible receivable balances (for which there are none for June 30, 2005 or 2004). Actual results could differ from these estimates.

WESTERN HILLS WATER DISTRICT
Notes to Financial Statements
June 30, 2005 and 2004

1. Summary of Significant Accounting Policies (continued)

Operating vs. non-operating revenues

Revenues related to providing water supply to customers and users are classified as operating revenue in the Statement of Revenues and Expenses and Changes in Retained Deficit. All other revenues, including property taxes, are classified as non-operating revenue.

2. Cash and Investments

The California Government Code requires California banks and savings and loan associations to secure a Public Agency's deposits by pledging government securities as collateral. The market value of pledged securities must equal at least 110% of deposits. California law also allows financial institutions to secure Public Agency deposits by pledging first trust deed mortgage notes having a value of 150% of the Public Agency's total deposits.

The entire cash balance is in one institution in the amount of \$18,934 at June 30, 2005 and \$5,046 at June 30, 2004 and is entirely insured under FDIC. The June 30, 2005 investments are categorized as follows:

Hamilton State Bank, Money Market Account	\$ 2,029,783
US Treasury Money Market Trust	2,430,439
US Treasury Notes, par \$4,415,000, 3.50%, due 12/15/09	4,378,259
Money Market Fund – (C.A.M.P.)	295,373
	\$ 9,133,854
Reflected in balance sheet as:	
Current assets	\$ 2,029,783
Assets restricted for debt services	7,104,071
	\$ 9,133,854

Credit Risk

Credit risk is the risk that an issue of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating by the California Government Code and the actual rating as of the year-end for each investment type.

Investment Type	Fair Value	Minimum Legal Rating	Not Required To Be Rated	Rating as of Year End		
				AAA	A	Unrated

3. Fixed Assets

All purchased assets are valued at cost. In accordance with generally accepted accounting principles for proprietary entities, depreciation has been provided on the straight-line method over estimated useful lives of thirty to forty years.

The following reflects the changes in fixed assets for the year ended June 30, 2005:

	<u>Balance</u> <u>June 30, 2004</u>	<u>Reclassifications</u> <u>And Additions</u>	<u>Retired</u> <u>Assets</u>	<u>Balance</u> <u>June 30, 2005</u>	<u>Depreciable</u> <u>Life in Years</u>
Water Treatment Facilities	\$ 10,044,622	\$ 135,175	\$ -	\$ 10,179,797	40
Pump station & well	3,057,844	-	-	3,057,844	30

4. “Mello-Roos” Assessment District – Western Hills Water District - Diablo Grande Community Facilities District No. 1

Western Hills Water District - Diablo Grande Community Facilities District issued bonds totaling \$21,000,000 in August, 2001, followed by \$6,650,000 in December, 2002, \$20,000,000 in May 2004 and \$9,350,000 in January 2005. The total debt issued was \$57,000,000. The proceeds are to fund facility assets. Interest rates on these bonds ranged from 2.25% to 5.7%.

The changes in the District’s long-term obligations were as follows:

	<u>Year Ended</u> <u>June 30, 2004</u>	<u>Year Ended</u> <u>June 30, 2005</u>
Balance at beginning of year	\$ 27,650,000	\$ 47,650,000
Bonds issued	20,000,000	9,350,000
Principal payments	<u>-</u>	<u>(445,000)</u>
Balance at end of year	<u>\$ 47,650,000</u>	<u>\$ 56,555,000</u>
Due in one year	<u>\$ 445,000</u>	<u>\$ 790,000</u>

	<u>\$ 60,193,999</u>	<u>\$ 56,555,000</u>	<u>\$ 116,748,999</u>

Reserve requirement restrictions

The provisions of the "official statements" of the bond issues require the following restrictions:

Reserve fund

The District is required to maintain an amount equal to the lesser of the following thresholds as of June 30, 2005:

- (a) 10% of the original principal: \$5,700,000
- (b) 100% of the maximum annual debt service on the bonds based on years ended September 1: \$4,375,596
- (c) 125% of the average annual debt service: \$5,405,043

The purpose of this \$4,375,596 reserve is to be used for debt service, if needed. Amounts in excess of the requirement, due to interest thereon, can be transferred to the Bond Fund to be used for current debt service. When the Reserve Fund exceeds the requirement to redeem the remaining outstanding bonds such excess shall be transferred to the District to be used for any lawful purpose.

WESTERN HILLS WATER DISTRICT

Notes to Financial Statements

June 30, 2005 and 2004

4. "Mello-Roos" Assessment District - Western Hills Water District - Diablo Grande Community Facilities District No. 1 (continued)

Reserve requirement restrictions (continued)

Bond fund

The Bond Fund consists of amounts held in trust by the Fiscal Agent for payments to bond holders (debt service). Annual special taxes assessed and collected shall be set aside for the debt service. During the fiscal years through June 30, 2005 property taxes were received on assessed property totaling \$7,243,629 from inception. Debt service payments totaled \$7,200,050 in interest and principal. \$2,013,637 has been applied out of special tax fund proceeds set aside for early short-term interest payments, leaving \$5,186,413 to be paid out of the "Bond Fund". Thus, \$2,057,216 of the taxes assessed remains in the Bond Fund set aside.

Special Tax Fund

An amount was provided out of the bond proceeds sufficient, when combined with interest earnings thereon and on amounts in the "Reserve Fund", to provide for interest due in the short term through September 2, 2005, shortly after the bond issue.

At June 30, 2005, \$288,756 had been set aside for the September 2005 interest.

Improvement Fund

The remaining proceeds of the bond issue after allowing for costs of issuance were set aside to reimburse improvement costs of \$17,106,638 (2001 issue) and \$5,493,887 (2002 issue), \$17,483,719 (2004 issue) and \$8,026,517 (2005 issue).

At June 30, 2005, the reserve requirements were as follows:

Reserve Fund	\$ 4,375,596
September 2, 2005 interest provided (special tax fund)	288,756
Bond Fund	2,057,216
Total reserve requirement	\$ 6,721,568
Funds set aside for debt service at June 30, 2005	\$ 7,104,071

An MAI appraisal, dated April 22, 2001, of the value of the property securing the debt "as is" was \$50,787,000. The value after the completion of site improvements was valued at \$77,527,000 (or a present value of \$63,307,000). The indebtedness will be retired over a thirty year period from assessed parcel taxes on the properties being developed, through the District.

WESTERN HILLS WATER DISTRICT
Notes to Financial Statements
June 30, 2005 and 2004

5. Retained Deficit and Capital

The District's assets are substantially in place as of June 30, 2005. However, the operations including water revenue will not be fully realized until the development is completed. At June 30, 2005, the primary customers were the 2 golf courses, clubhouse/restaurant and vineyard and the beginning of homeowners. The development plan includes a hotel, single family homes, condos and public facilities. Until they come to fruition, the water revenue will not cover expenses. It is anticipated, but not guaranteed, that the deficit will be funded by the developer.

6. Related Parties

Diablo Grande LP – All of the property in the District was originally owned by the Developer. When the Developer filed for bankruptcy in 2008 (see note 7), the remaining assets were acquired by the new owner. The Developer contributed \$8,206,193 to the District to acquire property and fund the deficit operation to date.

Funds have been advanced between the District and the Developer to cover construction costs since 2001. As of June 30, 2005 and 2004, the balance due from the Developer was \$14,116,734 and \$15,501,756, respectively. The June 30, 2005 balance due from the Developer is net of \$1,700,153 that was deemed uncollectible upon the subsequent filing for Chapter 11 reorganization bankruptcy by the Developer (see note 7).

Oak Flat Golf Company, LLC – The Oak Flat Golf Company, LLC ("OFGC") is managed by one of the corporations which is a partner in the Developer (Diablo Grande, Inc.). It is owned by four individuals and a Corporation. OFGC currently operates two golf courses.

GBC Corporation – The GBC Corporation operates the clubhouse and restaurant adjacent to the two golf courses. It is owned by an individual who is also the President of Western Hills Water District.

7. Subsequent Event

On March 10, 2008 Diablo Grande, LP filed for Chapter 11 reorganization bankruptcy, and the assets of the company were eventually sold to World International LLC for \$21,025,000 on October 7, 2008. As a result of this bankruptcy filing of the Developer, the District has determined that \$1,700,153 of the outstanding receivable from Diablo Grande, LP is uncollectible, and has recognized this expense in the Statement of Revenues and Expenses for the year ended June 30, 2005. In addition, \$682,052 in special deposits that were held through Diablo Grande has been forfeited through bankruptcy proceedings. The write-off of these special deposits has been recognized as a \$605,000 reduction in contributed capital on the Statement of Changes in Net Assets and a \$77,052 decrease in investment income on the Statement of Revenues and Expenses for the year ended June 30, 2005. Subsequent events have been evaluated through April 27, 2010, which is the date the financial statements were available to be issued.

WESTERN HILLS WATER DISTRICT
Notes to Financial Statements
June 30, 2005 and 2004

8. Going Concern

Continued operating losses coupled with the bankruptcy of the Developer raise doubts about the District's ability to continue as a going concern. The District's management is working with the new owner of the development to promote the completion of the development resulting in sales of homes which will provide property tax revenues necessary to repay the outstanding bonds and cover operating costs of the District.
